

1. Visit the NEW Digital Banking login site (using Chrome, Edge, Firefox, etc)

(click [here](#) for access)

2. Use your current Online Banking credentials to log in

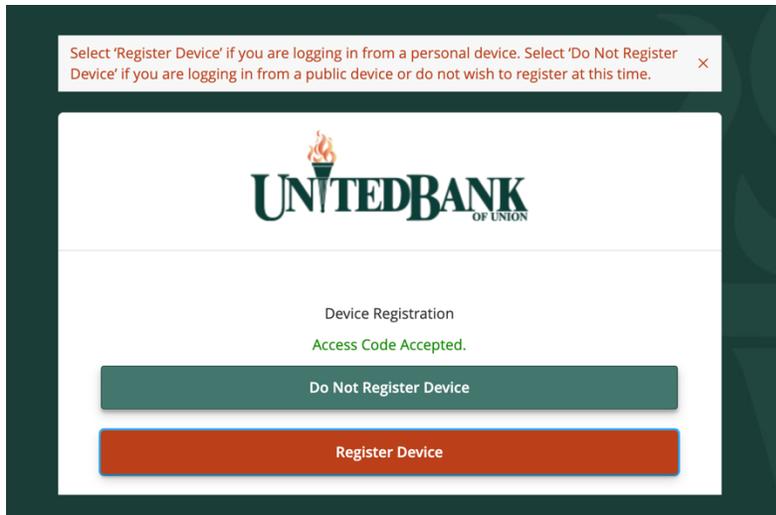

If any of the targets on this list are incorrect, please contact us for assistance. You will also be able to manage these targets after login by going to Security Preferences under Settings and choosing the Secure Delivery option.

You will be requested to retrieve an SAC (Secure Access Code) using information tied to your customer profile

4. Select a method in which to receive your code (text, call, email) and enter the 6-digit number you receive

5. You will be prompted to enter a new password for security purposes

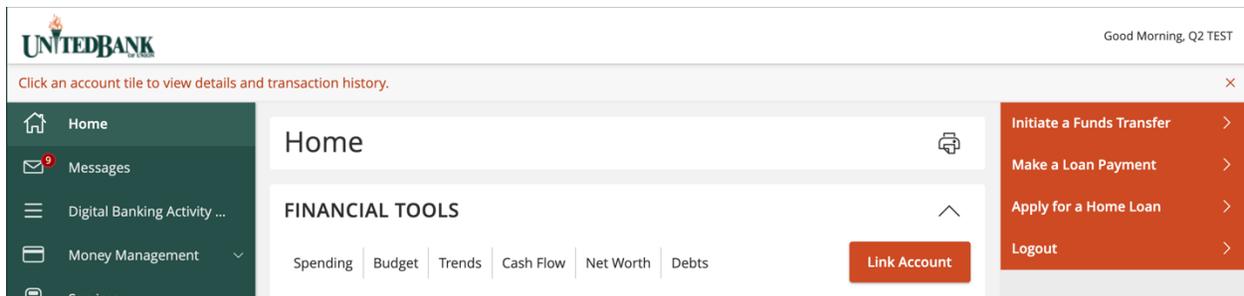

(Don't worry! You can change this password back once you log in, if you prefer)

6. If using a personal device, be sure to Register Your Device!

(This means you won't have to request an SAC when logging in from this device)

Success! You should now be able to see your accounts.

If you cannot see your accounts, please contact Beccah Carman or Brady Weinhold.
